

Peacekeeping

Peacekeeping has proven to be one of the most effective tools available to the UN to assist host countries navigate the difficult path from conflict to peace.

Peacekeeping has unique strengths, including legitimacy, burden sharing, and an ability to deploy and sustain troops and police from around the globe, integrating them with civilian peacekeepers to advance multidimensional mandates.

UN Peacekeepers provide security and the political and peacebuilding support to help countries make the difficult, early transition from conflict to peace.

UN Peacekeeping is guided by three basic principles: Consent of the parties; Impartiality; Non-use of force except in self-defence and defence of the mandate.

Peacekeeping is flexible and over the past two decades has been deployed in many configurations. There are currently 11 UN peacekeeping operations deployed on three continents.
